MEMORANDUM FOR THE RECORD

SUBJECT: House Government Operations Information Subcommittee Hearings

1. Mr. Sam Archibald called and advised that the subsequent testimony by Mr. Sylvester on the second day was pretty much repetitious of the first day when I was present. There was some further discussion on photos taken before October 12.

2. Mr. Archibald advised that the Committee is going into censorship plans with OEP on Wednesday, 22 May. On Thursday the Committee will be following up previous testimony of NASA representatives. Either Mr. Webb or Mr. Dryden will be appearing.

3. Mr. Archibald is trying at present to arrange with Dr. Brockway McMillan for a briefing at the Pentagon regarding tracking of our satellites and related problems concerning foreign satellite tracking. If successful in laying on the briefings at the Pentagon, the next logical step would be to request White House representatives or ourselves to testify concerning the tracking of foreign satellites.

4. Mr. Archibald will keep us advised.
